

Evaluate the Safety of Your Campus

Are there missing gaps in your campus security plan? Use this checklist to plan and protect your students and faculty.

→ School Safety Checklist

- ☑ Building Access Control Systems
- ☑ Locks and Deterrents for Windows and Doors
- ☑ Building Design and Infrastructure
- ☑ Exterior and Interior Vulnerabilities
- ☑ Alarm Security and/or Monitoring Systems
- ☑ Physical Premises Vulnerability Assessment
- ☑ Physical Barriers, like Fences and Gates
- ☑ Exterior Lighting
- ☑ Visual Obstacles to Cameras
- ☑ Gun Detection Security Technology
- ☑ Reactive and Proactive Security Response
- ☑ Comprehensive List of Threats, Both Probable and Improbable
- ☑ Identify Potential Threat Actors
- ☑ Create a Security Strategy
- ☑ Safety Protocols
- ☑ Active Shooter Training for Staff & Students
- ☑ Emergency Action & Evacuation Plans
- ☑ Security/Regulatory Compliance

While it may seem like a daunting task, a thorough risk assessment and the development and implementation of a comprehensive security plan is critical to keeping your students and faculty safe.

Take the time to ask yourself critical questions to determine what you need to safeguard the lives of your people.

Unfortunately, a threat actor only needs to find one entry point, one weak link. In the case of an active shooter, seconds count.

Most security systems are reactive. Alarms go off only after the perpetrator breaks in. Acoustic gunshot detection only alerts authorities after a shot is fired. Emergency call centers often depend on desperate 911 calls from victims before dispatching authorities.

It's far better to be proactive and identify potential threats **before** shots are fired, to lock down the premises, and give law enforcement critical intelligence—like suspect description and location—to help stop the threat as quickly as possible.

As Navy SEAL veterans, we've dedicated our lives to protecting people. After the Parkland shooting, we teamed up with elite technologists to give you and your security personnel the military-level technology and intelligence you need to win the war against gun violence in schools.

Our visual gun-detection solution (the first and only one of its kind holding U.S. Department of Homeland Security Designation) works with your existing security cameras, alerting authorities and administrators within seconds of detecting firearms.

Act now, protect tomorrow: Give your school real-time tracking to quickly locate threats and help save time and save lives.
