ZEROEYES™

Integrates into existing digital security cameras

Non-invasive AI gun detection

Actionable intelligence for first responders

Protect Your Business

Combat gun-related violence and mass shootings with AI-powered, human-verified gun detection software.

Trusted by industry leaders

SUBARU

☑ Department of Homeland Security SAFETY Act Designation

☑ Founded, owned, and operated by Navy SEALs veterans

☑ Patented technology is verified by humans to ensure no false alerts

☑ Serving businesses, schools, and government facilities in 40+ states
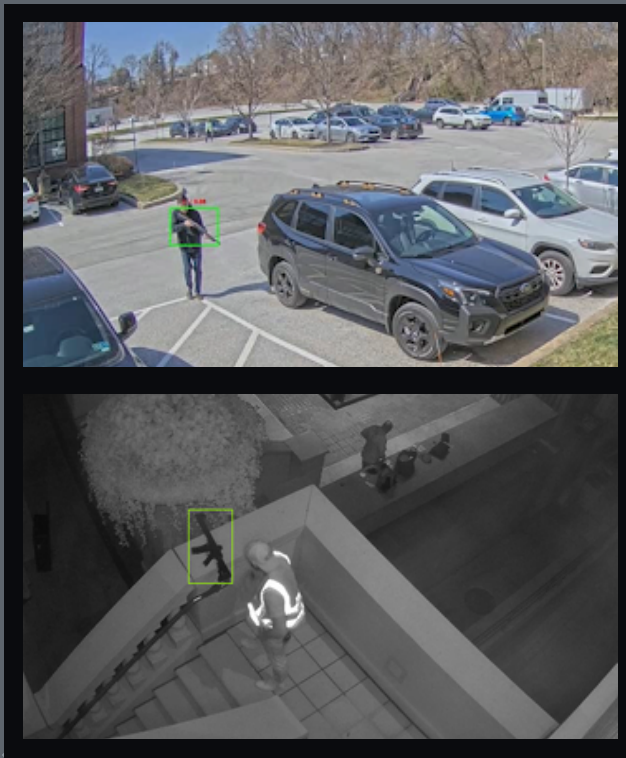

CHALLENGE

Automotive businesses and retailers can't implement access control or hardened, visible security measures without risking a loss of foot traffic.

Auto retail locations, offices, and lots are expansive—making it difficult to locate the shooter and wounded victims in an active shooting.

SOLUTION

ZeroEyes' visual AI gun detection provides a non-invasive, "invisible" layer of proactive security.

First responders get real-time data including the shooter's geolocation and photograph.

GETTING STARTED WITH ZEROEYES

☑ Software integrates into your existing digital security cameras

☑ More affordable than metal detectors, acoustic gunshot detection, or concealed weapons sensors

☑ Quick remote or on-site installation process

☑ Easy-to-use desktop and mobile interface
