

Commercial Security Consulting & Integrations

Discover unparalleled security for your business with a blend of expert consulting, cutting-edge technology, and continuous support. Our tailored solutions ensure your assets, personnel, and operations are safeguarded around the clock.

Why Choose Us

DEEP INDUSTRY EXPERIENCE

We showcase a team with collective backgrounds that include over 25 years in private security and extensive expertise in government security protocols.

CONSULTING EXPERTISE

We provide strategic security assessments and tailored risk management plans.

ADVANCED TECHNOLOGY

We focus on the early adoption of security innovation, assessing new, cost-effective technologies to enhance our clients' protection.

24/7 SUPPORT

We ensure our clients have round-the-clock access to expert assistance, guaranteeing peace of mind and immediate help whenever needed.

Our Services

CONSULTING AND RISK ASSESSMENT

- Expert analysis of threats, vulnerabilities & security gaps.
- Strategic planning for tailored security strategies.
- Detailed risk evaluations to prioritize and effectively allocate security resources.

TRAINING

- Emergency planning and security awareness programs, including active shooter preparedness.
- Empowering staff to effectively respond to crises.

OUR PARTNERS

SECURITY INTEGRATION & TECH

- Full-service solutions from camera installations to access control systems.
- End-to-end integration for maximum security efficiency.
- Customized surveillance, access management, and alarm monitoring for 24/7 protection.

PUBLIC SAFETY ADVOCATE

- Tailored security services for schools, churches, government properties, municipalities, and local events, utilizing advanced innovative technology and trained personnel.

ZEROEYES[™]
Certified Reseller

Proactively Protect Staff and Students

ZeroEyes delivers a proactive A.I. gun detection solution that integrates into existing security cameras to protect against gun-related violence by reducing response times, providing human-verified intelligence and delivering clarity - ultimately saving lives.

57%

of teens are worried about the possibility of a shooting happening at their school.

63%

of K-12 teachers do not believe their schools are prepared for a mass shooter event, despite training

In most school shootings the gun is visible for an average of **7 minutes** before shots are fired.*

The majority of gun violence on school campuses occurs, or begins, **outside** of the building.

ZeroEyes turns passive cameras into proactive monitoring systems that cover parking lots, stairwells, hallways, and entrances for less than one-third of other options.

Department of Homeland Security SAFETY Act Designation

Founded, owned, and operated by Navy SEALs veterans

Patented technology is verified by humans to ensure no false alerts

Serving businesses, schools, and government facilities in 42 states

Staying "left of bang," or before a shot is fired, is critical to preventing a mass shooting tragedy.

It's typical for an active shooter to "prep stage" before entering a building, and in many cases, surveillance cameras show a shooter with a visible gun for **7 minutes** on average before shots are fired. By alerting first responders before shots are fired, you save time and save lives. Multi-layered solutions are recommended by experts and authorities.

ZeroEyes Can Send Alerts BEFORE Shots are Fired

:00 SEC

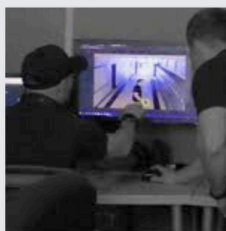

MONITOR anywhere there's a camera with 24/7/365 coverage

:01 SEC

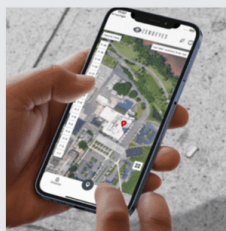

DETECT guns with actionable visual intel of location & description of perp

:02 SEC

VERIFY every alert through our human operators to prevent false positives

:03-:05 SEC

ALERT security and first responders of the threat in just 3-5 seconds

RESPOND

RESPOND to the threat with REAL TIME intel that aids 1st responders

PROTECT

PROTECT against an active shooter crisis by reducing response times
